FLOODS IN MISSOURI.

AWFUL DAMAGE DONE IN THE OSAGE VALLEY.

See Will Run Into the Millions—Hundreds of Families Have Lost Everything—The Valley a Scene of Distress—The Suffering Will Be Terrible.

JEFFERSON CITY, Mo., Dec. 26.—The news from the Gasconade and Osage rivers is more encouraging. At Hagnell a fall of twenty-one inches in the Osage is reported, while the Gasconade is falling rapidly. News to-day confirms reports of farmers rendered destitute by the flood, and the condition of some is deplorable in the extreme. Many "lost" not only their crops and cattle, but were stripped of household goods and provisions as well. There is no way of estimating the loss, but it is very heavy.

The "lost" timber men have suffered severely. One contractor in the vicinity of Linn creek is reported to have lost 100,000 ties. The Ramsey Bros. of this city have also suffered some loss, but just how much they are not yet able to figure up. A telegram from New Haven, Mo., states that 600 of their ties in one batch had been caught at that place. Along the Missouri river through this county the boats were wrecked, and the loss of the corn crop is heavy. An estimated loss of \$2,000,000.

A large part of the corn crop was in the fields, and all is lost. One estimate places the corn loss at \$2,500,000 alone. This may be excessive, but when the other losses are determined, such as live stock, hay, fencing, damage to wheat, buildings, etc., the loss will run up into the millions. The entire Osage valley for 400 miles is a scene of desolation and ruin, suffering necessarily resulting, as hundreds of families have lost everything. Within the space of six days the loss of the richest valleys in the state has been complete. CONGRESSIONAL.

Dec. 26.—The spirit of Americanism still brooded over the senate today, but although every senator who spoke was an American, the position of the president, all agreed the opinion that the war would not result. Still the gravity of the situation was not underestimated. The immediate question before the senate was the house bill appropriating \$100,000 to defray the expenses of the commission recommended by the president. There was some difference of opinion as to whether the senate should in some way of its own accord, in view of the general opinion being that it should go to the committee on foreign relations. This debate, however, had no practical result, as Mr. Allen, Populist, Nebraska, objected to the reading of the bill. Before the Venezuela discussion occurred Mr. Calkins presented with a favorable report this house resolution for a holiday recess beginning to-morrow, but Mr. Chandler, Republican, New Hampshire, asked that it lie on the table. Mr. Allen, Populist, Nebraska, secured a broad smile to go around the chamber when he asked for the immediate consideration of a nearly identical resolution, which he introduced in the name of the committee on foreign relations. The subject of war between the United States and Great Britain was the prevailing theme, which found expression in lofty, patriotic sentiments, in graphic portrayals of the horrors of war, and, at times, in defiant warnings to the people across the water. The most notable utterance of the day was that of Mr. Sherman, Teller, Mills, Lodge, Platt, Turpie, Chandler, White, Caffery, Call and Stewart, representing the three shades of political sentiment and yet in main united in the support of the president's vigorous assertion of the Monroe doctrine, and if used to an action essential to maintain
